

BLUESUPPLY ASIA
YOUR TEAM'S APPAREL PARTNER

INTRODUCTION

Welcome to Bluesupply Asia - Your premier partner for customized apparel and accessories for watersports. Specializing in Dragon Boat, Outrigger Paddling, and more, we offer top-quality, sustainable products tailored to your team's needs. Our over 5 years expertise and dedication to quality ensure that you get the best gear to represent your team spirit.

CUSTOM DESIGN

Our in-house design team works closely with clients to bring their vision to life. We'll work with you to create one-of-a-kind designs that represent your team's identity and inspire pride when worn. From logo placement to color options, we'll handle the entire design process.

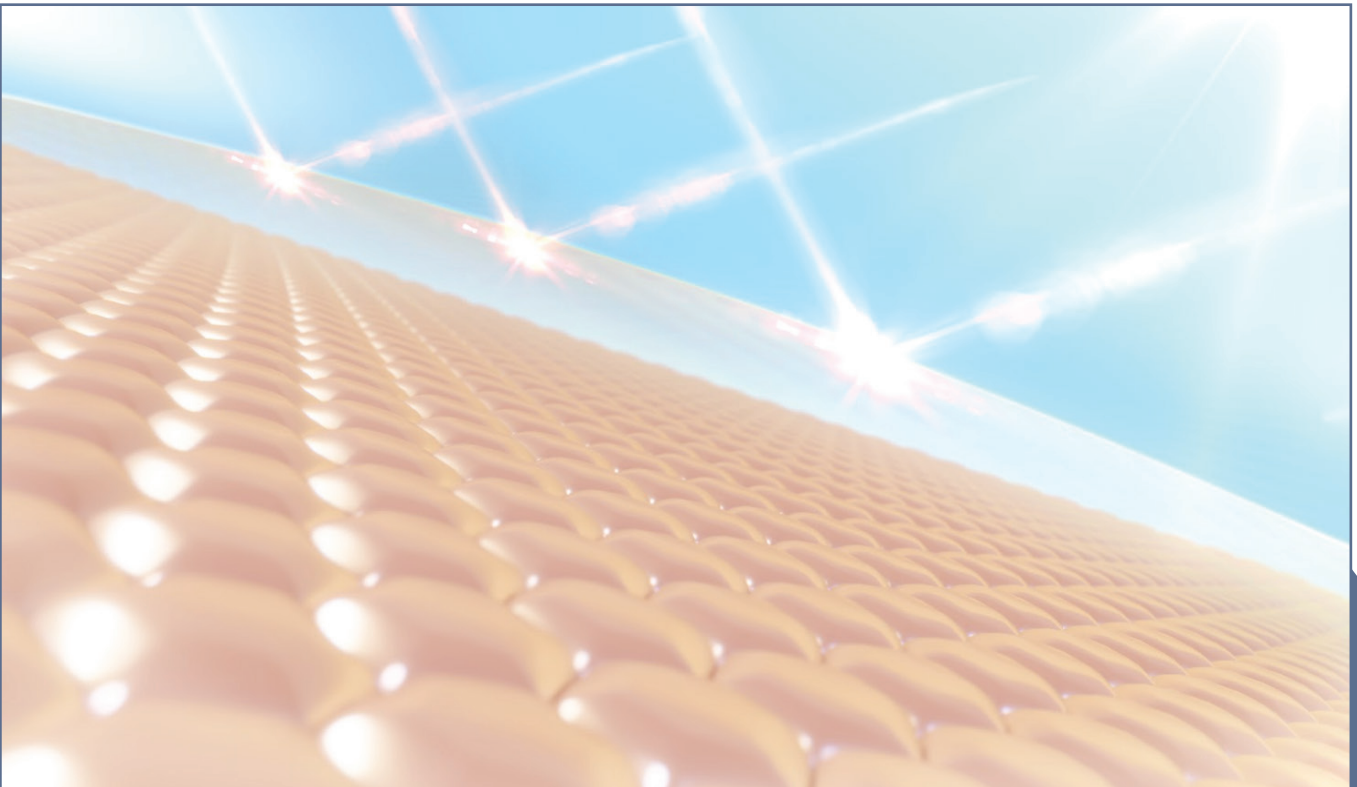

ECO-FRIENDLY FABRICS

We use EcoGreen fabrics made from recycled plastics to reduce environmental impact. Our rash guards are engineered with UPF 50+ protection to shield paddlers from the sun's harmful rays.

QUALITY PRODUCTION

All of our products are produced to the highest standards using durable, performance materials. You can trust that uniforms made by Blu supply will withstand rigorous training and last for seasons to come. We also conduct quality checks to ensure each order meets our strict specifications.

HIGH QUALITY EMBROIDERY

Our digitized embroidery machines can precisely replicate even the most intricate logos and designs. Embroidered details add the perfect custom touch to uniforms.

FAST DELIVERY

Clients can expect to receive their finished uniforms within 4 weeks. Our experienced production managers will keep your order on schedule so your team is outfitted in time for the season. We're also happy to do rush orders if needed.

100% SATISFACTION

At Bluesupply, customer satisfaction is our top priority. We want you to love how your team looks in their new uniforms. That's why we stand behind our work with a 100% satisfaction guarantee. If for any reason you're not happy, we'll make it right.

SUSTAINABLE MATERIALS

At bluesupply.asia, we're committed to making a positive impact on the environment. That's why we use polyester fabric made from recycled plastic bottles wherever possible. By giving used plastic bottles a new life through our products, we're helping to prevent them from ending up in our oceans. We believe that every little bit counts, and we're constantly looking for new ways to reduce our environmental footprint.

That's why we're in close contact with our supply chain to stay up-to-date on the latest recycling technologies and integrate them into our products whenever possible. Our dedication to sustainability doesn't stop there – we're also constantly evaluating our production processes to identify opportunities for improvement and minimize waste. We're proud to be doing our part to protect the planet, and we're committed to continuing to find new ways to make a positive impact.
